Company Overview

Lycos for Development and Services Co. Ltd is a leading provider of telecom infrastructure, fiber optic networks, power solutions, and integrated safety systems. Since 2010, for more than 15 years, we have specialized in delivering end-to-end solutions, including fiber network operations and maintenance, network installations, and energy management, designed to meet the dynamic needs of telecommunication providers, enterprises, and government sectors.

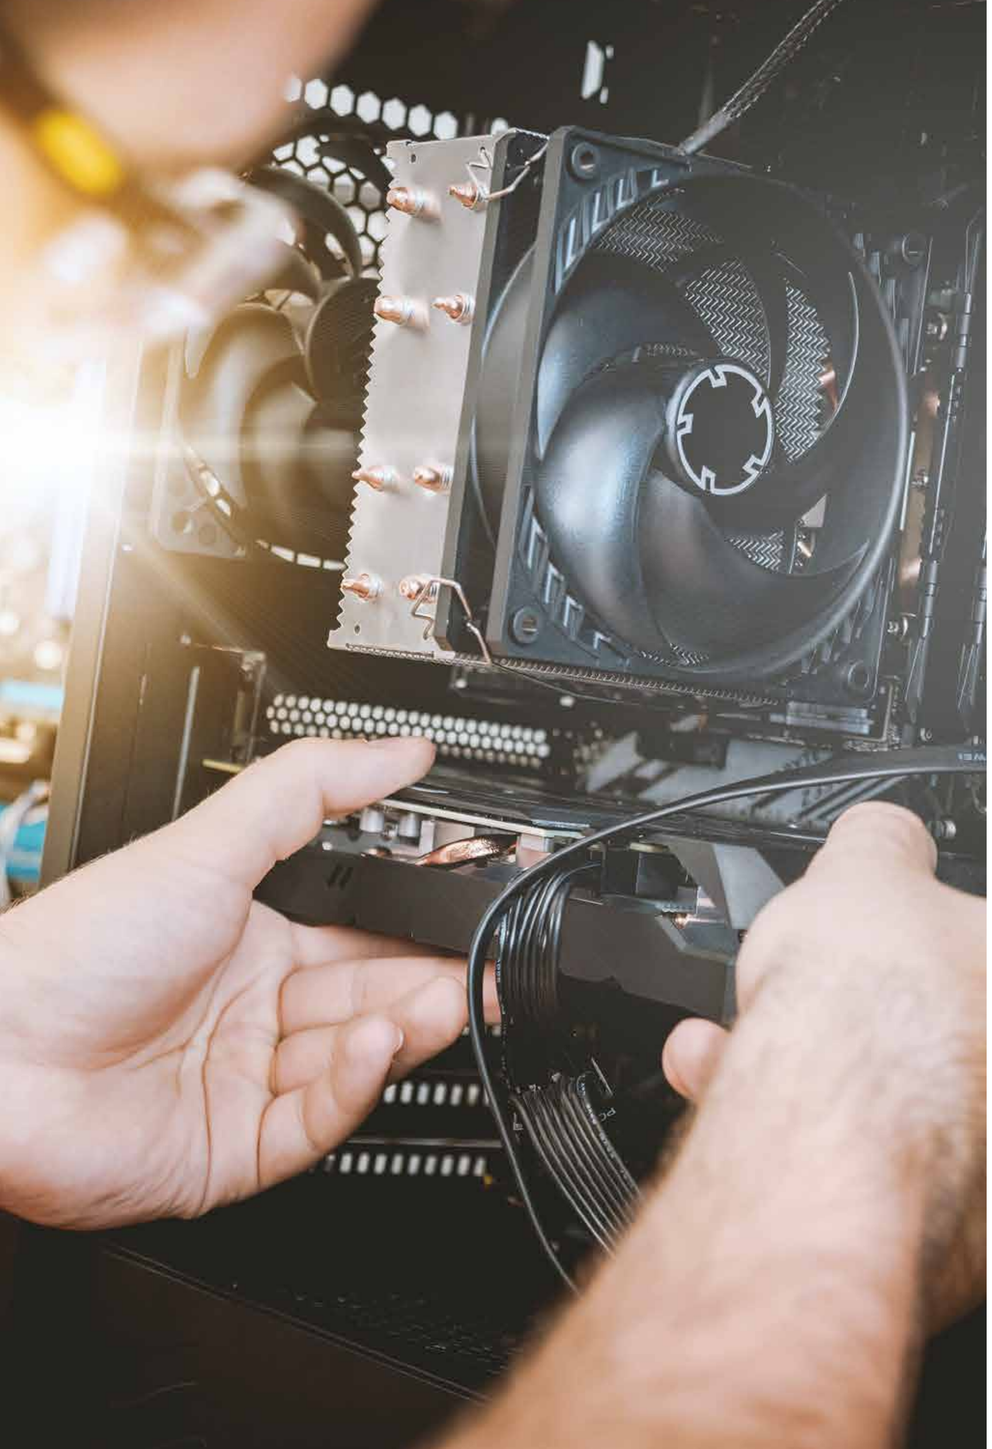

Headquartered in Khartoum, with workstations across Sudan and an office in the UAE, we combine local expertise with a global vision to deliver reliable, innovative, and efficient services.

Our team of 80+ staff, including fiber technicians and telecom engineers, supports operators around the clock with preventive maintenance and rapid fault restoration.

15+
years of experience since 2010

80+
staff, technicians and engineers

104%
QAST OSP supplier rating, Nov 2025

Our Journey

Founded in **2010** by a team of visionary engineers, Lycos quickly built a reputation for excellence, delivering high-quality projects on time and within budget.

In **2017**, we expanded our operations with 14 fully equipped workshops across all Sudanese states, enhancing our capacity to manage large-scale projects and invest in community development. More recently, we established new offices in the UAE and initiated development in Saudi Arabia, marking a significant expansion into global markets and reinforcing our commitment to innovation and growth.

In **2025–2026**, we established Lycos for Development and Services LLC in Sharjah Media City, UAE; ranked first in QAST's November 2025 OSP Suppliers Performance Evaluation with a score of 104%; and secured new fiber contracts, including Omdurman city FTTH with Sudatel and fiber O&M for Sudani.

Our Vision

To be a global leader in integrated telecom and infrastructure solutions, driving innovation, seamless connectivity, and sustainable development.

Our Mission

Delivering cutting-edge telecom, power, and safety solutions with excellence, integrity, and a commitment to future-ready infrastructure.

Our Values

Quality

Delivering excellence through continuous improvement.

Integrity

Operating with transparency, honesty, and ethical practices.

Collaboration

Fostering teamwork and knowledge sharing.

Customer-Centric

Tailoring solutions to meet our clients' unique needs.

Sustainability

Promoting eco-friendly and community-focused initiatives.

HSE (Health, Safety, and Environment)

Prioritizing safety and compliance in every project.

Our Services

Fiber & OSP Solutions

Our core business: end-to-end fiber and outside-plant (OSP/ISP) services for operators and enterprises:

Fiber O&M (PM & CM)

Preventive and corrective maintenance of aerial, underground and submarine fiber routes.

Backbone & FTTH/FTTx

Backbone routes and FTTH/FTTx roll-outs, from civil works and splicing to OTDR testing.

24/7 Helpdesk & NOC

Round-the-clock ticketing, rapid fault restoration, and daily PM and OTDR test reporting.

Consultation & Supply

Engineering and planning, plus fiber cable and accessories supply with manufacturer Hengtong.

Our Services

Telecom Network Solutions

We provide turnkey solutions for telecommunication companies, mobile network operators, and internet service providers:

Telecommunication Projects

Comprehensive site assessments, design, installation, and maintenance.

FTTx

End-to-end installation and management of Fiber To The (Office, Home, Site, Enterprise, etc.) for high-speed data transmission.

Drive Test Services

Rigorous performance testing to guarantee optimal network coverage and quality.

Maintenance Services

Proactive and reactive support, including network operations, link building, and civil works.

Our Services

Power Solutions

Helping organizations optimize energy consumption and reduce operational costs:

Renewable Solar Energy Services

Sustainable, eco-friendly energy solutions, backed by our expertise in solar supply and comprehensive, scalable installations - from residential homes to large factories and energy storage systems.

Integrated Power Solutions

Comprehensive energy audits, innovative system design, and seamless installation services that optimize power efficiency and reliability across industrial, commercial, and residential applications.

Power Backup Services

Robust, uninterrupted power supply solutions engineered to safeguard operations against outages, ensuring continuous performance for critical systems and everyday applications.

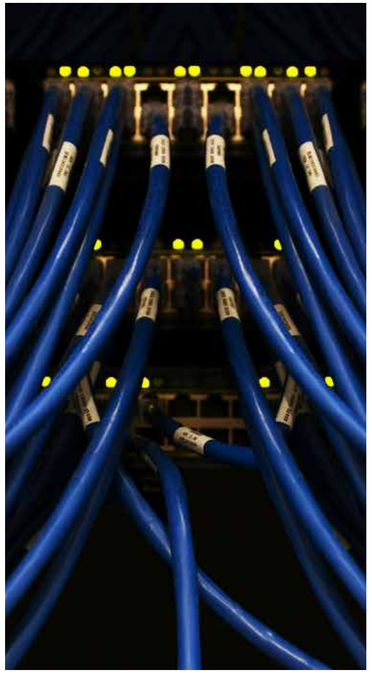

Genset Supply & Maintenance

End-to-end genset solutions - from expert supply and installation to scheduled maintenance - delivering consistent, dependable backup power for businesses and residences alike.

Our Services

Integrated Safety Systems

Delivering advanced security and fire safety measures:

Low Current Systems

Expert design, installation, and maintenance of structured cabling, access control, and communication networks.

CCTV Surveillance

Real-time monitoring solutions to enhance security and prevent threats.

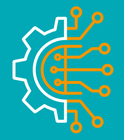

Fire Fighting Systems

Comprehensive fire detection, suppression, and alarm solutions to safeguard lives and assets.

Innovation & Future Goals

Lycos is committed to staying ahead of industry trends through:

Digital Transformation

Embracing smart technology, automation, and digital ERP for HR, payroll, and maintenance.

Market Expansion

Entering new regional and international markets.

Strategic Collaborations

Building strong global partnerships.

Operational Efficiency

Continuously refining processes and embracing new innovations.

Corporate Social Responsibility (CSR)

At Lycos, we believe in making a positive impact on society:

Sustainability

Implementing energy-efficient, eco-friendly projects.

Infrastructure Rehabilitation

Delivering targeted projects for underserved areas.

Renewable Energy Advocacy

Promoting the adoption of sustainable energy practices.

Community Development

Providing technical training and skill development programs.

Our Projects

Here is a list of some of the main projects that we have delivered for our most valued clients:

Zain

Maintenance Services:
1. PM & CM OSP 1850 km
2. PM & CM OSP NEC project

Projects:
1. FTTX (GoK sites)
2. Backbone fiber routes
3. NEC connectivity & rectifications

Qast

Expand Horizons

KSH, Zain's operations arm

Maintenance Services:
1. OSP PM & CM supplier

Projects:
1. Kassala fiber project

Recognition:
1. Top-ranked OSP supplier (Nov 2025)

Sudatel

A Telecom Group

Maintenance Services:
1. PM & CM FTTH project

Projects:
1. Omdurman FTTH (Phases I–II)
2. FTTH splicing
3. FTTH as-built preparation
4. OSP corporate projects
5. Backbone rectifications

Sudani

Maintenance Services:
1. Africa Horizons overhead fiber O&M
2. Submarine fiber O&M

Canar

Maintenance Services:
1. PM & CM OSP 2200 km

Projects:
1. Development projects
2. NEC connectivity
3. Backbone rectifications

Phoebe

France

Projects:
1. Port Sudan fiber optic services

Recent Projects

Selected fiber projects delivered and underway in 2025–2026:

DEC 2025

Kassala Fiber Project

Zain / QAST

Fiber project completed and accepted in December 2025.

2026

KTN–SHN Backbone Fiber

Zain

Backbone fiber route deployment and link handover.

2026

ATB–SHN Backbone Fiber

Zain

Backbone fiber route deployment, OTDR testing and as-built documentation.

2026

GoK FTTX Sites

Zain

FTTX site connections delivered across multiple GoK areas.

2025–26

KOS–RBK Route

Zain

Kosti–Rabak metro fiber route, including permits and civil works.

2026

Omdurman City FTTH

Sudatel

City FTTH roll-out, with scope extended to Phase II.

2026

Africa Horizons Fiber O&M

Sudani

Operations and maintenance of overhead and submarine fiber routes.

2025–26

Port Sudan Fiber Optic Services

Phoebe (France)

Fiber optic services for an international project in Port Sudan.

Fiber materials supply: fiber optic cable and accessories, sourced in partnership with manufacturer Hengtong.

Performance & Licences

Independent recognition of our service quality, backed by valid operating licences.

QAST · NOVEMBER 2025 OSP SUPPLIERS PERFORMANCE EVALUATION

104%

Top-ranked OSP supplier

Highest total score among QAST's OSP partners

Assessed on:

- MTTR compliance
- MTBF (fiber cut frequency)
- PM quality
- Audit results
- Reporting
- Ticket closure & quality
- Initiative

Where We Are?

Our global presence is strategically positioned to support our diverse clientele and ongoing expansion efforts:

SUDAN · HEAD OFFICE

Khartoum, Riyadh, Block 11, House 40, Second Floor
Workstations across Sudan

UAE OFFICE

Lycos for Development and Services LLC
Sharjah Media City, UAE

Workstation Locations

With strategically located workstations across Sudan, we ensure efficiency, rapid response, and seamless service delivery.

Why Lycos?

Expertise

Proven track record in executing large-scale telecom and infrastructure projects.

Leadership

Specialized in fiber optics, renewable energy, and security systems.

Excellence

Committed to quality, sustainability, and workforce development.

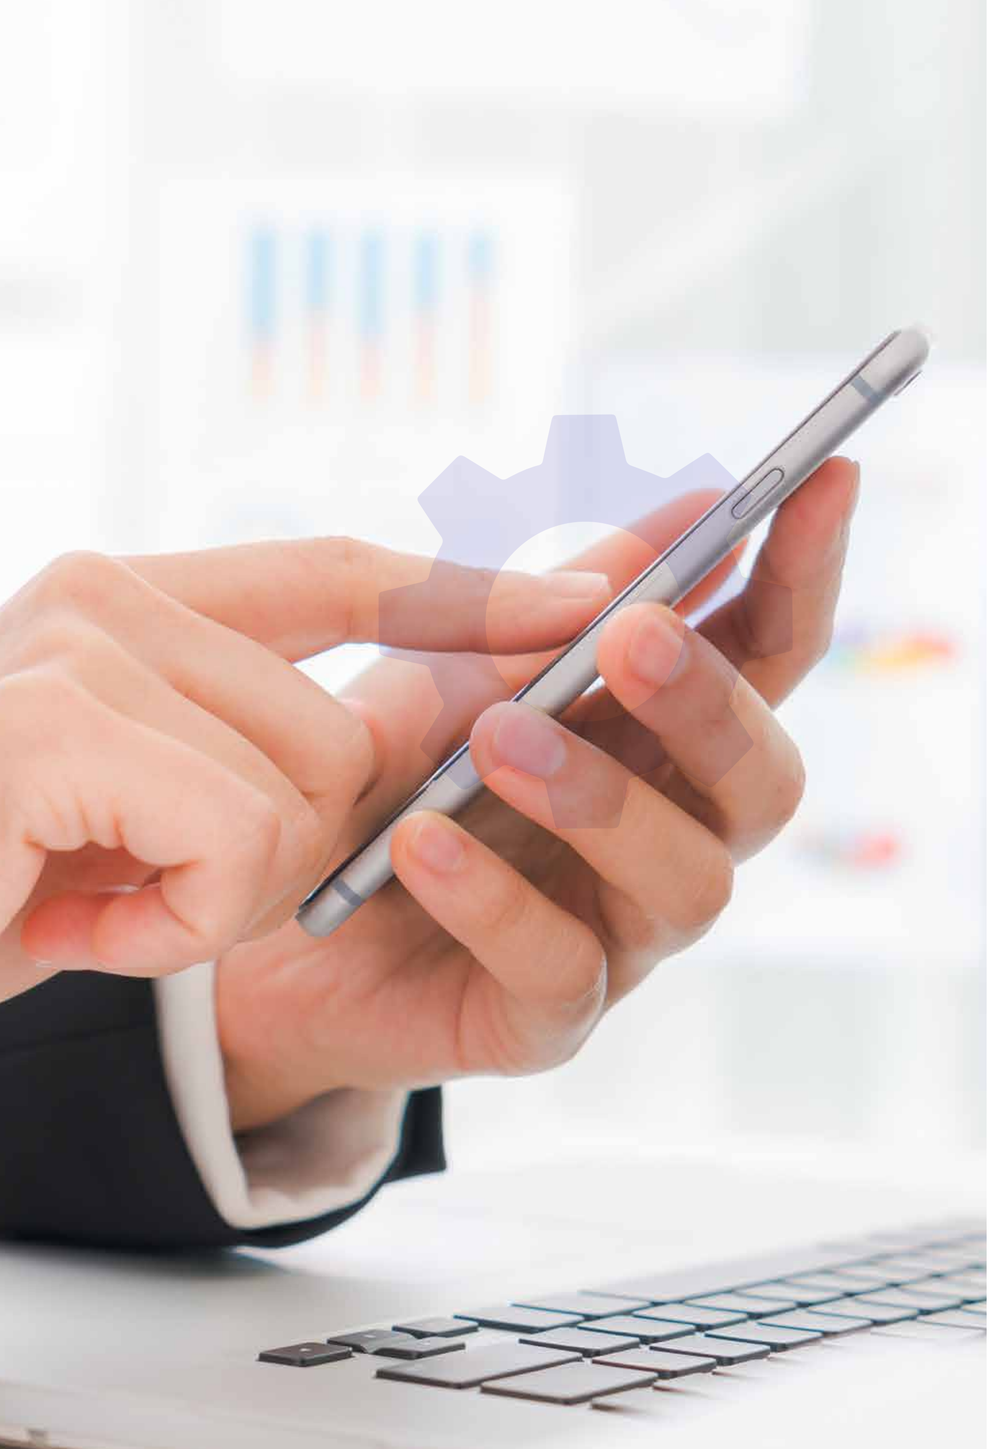

Partnerships

Collaborating with leading telecom providers and enterprises.

Technology

Leveraging state-of-the-art, future-ready solutions.
